(Not all prohibited bases will apply to all programs and/or employment activities.)

# Definition of Terms

## **Official Agency:**

States and privately owned entities designated and/or delegated by the Federal Grain Inspection Service (FGIS) to provide official inspection and/or weighing services under the authority of the United States Grain Standards Act (USGSA). Only entities listed in this Directory are recognized as Official Agencies (OAs) by FGIS.

## **Designation:**

Provides permissive official domestic inspection and/or weighing services under the USGSA.

## **Delegation:**

Provides official mandatory export inspection and weighing services under the USGSA, at export port locations. Only States are delegated to perform export inspection and weighing services.

## **Commodity Sampling Agreements under the AMA of 1946:**

FGIS may enter an agreement with a State to have State employees perform certain Federal functions related to providing inspection and weighing services under the Agricultural Marketing Act of 1946 (AMA). Specifically, Federally-trained and -licensed State employees perform a number of voluntary services, including sampling, bulk weighing, check-loading, check-weighing, condition examination, condition of container examination, stowage examination, sanitation inspection, falling number testing, and related services for rice, dry beans, peas, split peas, lentils, hops, and processed grain products. These functions are performed by Federally-licensed State employees under the supervision of a State manager. A FGIS manager provides general oversight and monitoring of the program. FGIS reimburses the State for work performed by State employees.

## **Commodity Inspection Agreements under the AMA of 1946:**

FGIS may authorize OAs to provide certain official services under the AMA. OAs perform a wide range of voluntary inspection activities and related functions for rice, dry beans, peas, split peas, lentils, hops, and processed grain products. These functions are performed by Federally-trained and -licensed OA employees who are under the direct supervision of OA program managers. A FGIS manager provides general oversight and monitoring of the program. The OA collects fees for these services and pays FGIS a predetermined percentage of these fees for FGIS oversight.
