AUDITOR COMPLETION INSTRUCTIONS

All questions on the USDA Harmonized GAP Plus+ - Checklist shall be assessed according to the Verification Instructions outlined in the USDA Harmonized GAP Plus+ Standard. Auditors shall have a copy of the Standard with them when performing audits to verify questions are assessed appropriately. All questions shall be assessed using one of the following:

Compliant (C) - The operation meets the requirements of the USDA Harmonized GAP Plus+ Standard.

Corrective Action Needed (CAN) - The operation does not meet the requirement(s) of the USDA Harmonized GAP Plus+ Standard, however the non-conformance is not considered to be an immediate food safety risk.

Immediate Action Required (IAR) - The operation does not meet the requirement(s) of the USDA Harmonized GAP Plus+ Standard and the non-conformance is considered an imminent food safety risk. An imminent food safety risk is present when produce is grown, processed, packed or held under conditions that promote or cause the produce to become contaminated. Observation of employee practices (personal or hygienic) that jeopardize, or may jeopardize, the safety of the produce are considered an "IAR". The presence or evidence of rodents and an excessive amount of insects or pests are also considered an "IAR".

Not Applicable (N/A) - The question is not applicable to the operation.

Auditor Comments: The auditor shall document the findings associated with any question answered "CAN" or "IAR" in the auditor comment section of the checklist. Auditors may also document observations associated with any question on the checklist whether or not the question is a non-conformity if the explanation clarifies why a question was answered compliant. The auditor shall write a comment for each question answered "N/A" addressing why the question was answered "N/A".

Tallying the Audit: Once the auditor finishes the audit, the score sheet shall be filled out by recording the number of C, CAN, IAR, and NA's for each section of the audit. The question number of any question answered as CAN or IAR for each section shall be noted in the last column of the score sheet.

Corrective Action Reports: The auditor shall fill out a Corrective Action Report for each question that has been answered "CAN" or "IAR". Auditor shall refer to the *GAP&GHP Audit Verification Program - Policy and Instructions* for further guidance on Corrective Action Reports.

Auditee Information

Auditees should download the complete USDA Harmonized GAP Plus+ Standard which provides more complete & detailed information regarding the specific questions covered by this audit checklist. The complete Standard is available on the USDA website at www.ams.usda.gov/gapghp.

The acceptance criteria to meet USDA-AMS requirements are outlined on the USDA Acceptance Criteria page, however be aware that depending on who the client(s) requiring the audit are, their specific acceptance criteria may vary from the USDA-AMS criteria.

It is intended that the scopes of the audit selected are completed in their entirety and the audit not restricted to one specific section. However, at the auditees request, the audit may be split to accommodate scheduling; however, if this is done, the audit is not complete and no certificate or web posting will be issued until the audit is finalized.

To schedule an audit, please go to the USDA-AMS website at www.ams.usda.gov/gapghp and click on the "Request an Audit" link. This will list out the local contacts across the country who can be contacted to schedule an audit. For auditees without internet access, please contact your local Federal or Federal-State Specialty Crops Inspection office, or the Audit Services Branch at 202-720-5021.

**USDA Acceptance Criteria for the
Harmonized GAP Plus+ Audit**

1	No questions are assessed as an "IAR", Immediate Action Required.
2	Falsification of records is considered an "IAR".
3	Any question marked with a ● in the MAN column must be assessed as "compliant".
4	Operation must have performed all risk assessments, designated with an "A" in the DOC column, in the USDA Harmonized GAP Plus+ Standard.
5	Produce GAPs Harmonized Food Safety Standard previously, the auditee must have addressed all associated CANs or IARs, following their established corrective action procedure.
6	In each major section (G, F, and P) of the audit, at least 80% of the questions not answered as "N/A" must be answered as compliant.

If an operation meets the acceptance criteria as outlined above, the operation will receive a certificate stating its conformance to the Harmonized GAP Plus+ Standard as well as being posted to the USDA website. Corrective action reports will still be supplied to the auditee for all nonconformances.

If an operation does not meet the acceptance criteria as outlined above, a corrective action report form will be issued for each nonconformance noted on the audit. The operation has the opportunity to take measures in order to address the issue and schedule a new audit in order to show compliance to the acceptance criteria.
